

“Sanitary Pads for Women Refugees” Certificate

Certificate of donation for _____

Amount of donation _____

This donation will go towards the FOH – Project “Sanitary Pads for Women Refugees”, Rwanda

This project will have a direct impact on improving the lives of refugee women in Rwanda. Indeed, access to sanitary pads will not only enable them to limit absences from work, which greatly reduces their economic independence, but also, this simple gesture of hygiene will give these Rwandan women greater access to education.

The sanitary pads are produced in a production unit based in Kigali run by women. To make this project possible, dozens of women will be hired to ensure the production, distribution, and promotion of these sanitary pads. The surplus of production will be sold on the market.

With your contribution, you are helping adolescents and young women refugee of Rwanda to forge themselves a brighter future.

Many thanks for your support!
